

Essential Pegasus XRL Course

Tuesday 18th February 2020
9am – 4pm

SBK Head Office, S42 5US

What's happening on the day?

Gain the essential knowledge and skills to make Pegasus XRL work for your business.

Suitable for users who are responsible for generating and analysing reports, this structured and practical course will allow you to learn the most commonly used features giving you complete confidence in creating simple and effective reports.

Led by a Pegasus training specialist, you will get the chance to learn about:

- Core functionality of XRL
- Writing Reports - Practical Examples
- Filters and Criteria - How to get the right information
- How to create reports
- Macro Buttons
- Chart accounts and data tables
- Essential hints and tips

By the end of the course you will know your way around the system and see significant time saved. On completion, you will also gain an SBK Training Academy certificate.
